DETAILED ACTION

Allowable Subject Matter

1. Claims 1-38 and 41-102 are allowed (Claims 39-40 are canceled by Applicant).
2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-36 is the inclusion of the limitation of a first antenna pattern acting as a driven element and a second antenna pattern as a passive element, wherein the elongate pattern of the first antenna pattern is closer to the grounding conductor portion than the elongate pattern of the second antenna pattern. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 37-38 and 41-72 is the inclusion of the limitations of a first antenna pattern acting as a passive element, formed as a loop-type antenna pattern; and a second antenna pattern as a driven element formed as an inverted-L-shaped antenna pattern, and not having a connection to the grounding conductor portion. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 73-102 (See Office Action mailed on July 25, 2005).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
